

Covid-19 / BDC initiative

The British Dance Council represents many members throughout the United Kingdom.

As a governing body, our initiative is to serve its members, providing the required services to support the dance industry. For many years, through their day to day procedures, the BDC exists to set an example to all its members.

In these unprecedented times the BDC has offered support and encouragement, it has been proactive in promoting awareness of Dance Sport, particularly lobbying the government and its members of parliament.

While we cannot please everyone, we have tried to serve with a constructive mind set, in drafting letters to make the voice of Dance Sport heard. The choice is entirely individual and we appreciate that not all members will agree with the initiative.

We wish to endorse our full support of government advice at this time and we encourage our members to adhere to such safeguarding strategies.

We are here to serve. Keep safe - keep dancing.
